

## Creating a Free Voice Thread Account

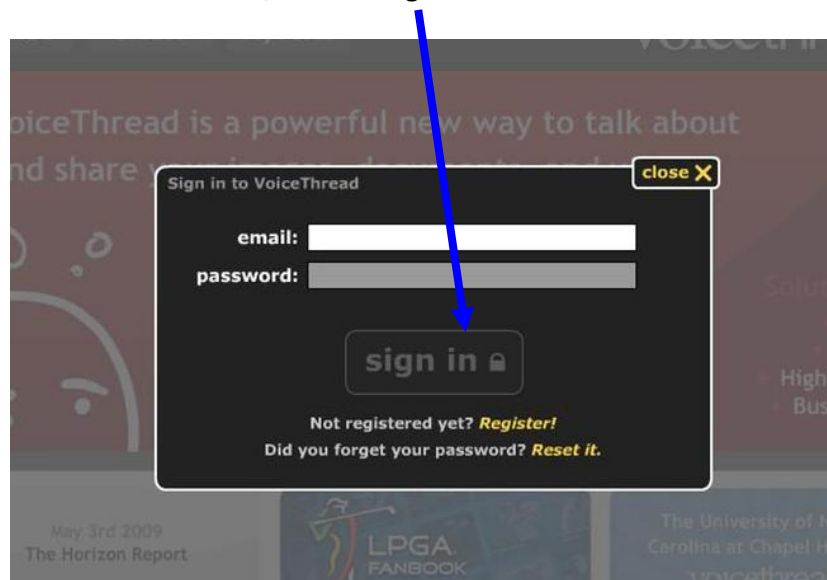

Voice Thread is a new tool available on the Internet that allows people to have conversations around videos, images, documents, or presentations. While various types of professional or educational accounts can be created with a fee, this is how to open a personal Voice Thread account free of charge.

1. First, visit **www.voicethread.com** in your web browser:

Click on **My Voice** – this will let you either create a new account, or log in to your Voice Thread account if you've already created one

2. Next, the computer will prompt you to log in. If you have already created your account, you're all set, but if you need to make a new account, click on **Register**:

3. You should see this registration screen – go ahead and fill that information in and click **Register**:
